

GERMANY ASKS CONFERENCE ON REPARATIONS

REPEAL OF DRY LAW VOTED BY THE ASSEMBLY

Tucker Repeal Bill Approved by Lower House Thursday by a Vote of 48 to 13

REPEALER HAS LITTLE CHANCE TO PASS THE SENATE IS BELIEF

Resolution Commending New York Governor Introduced in Assembly

MADISON.—By the Associated Press.—The Wisconsin assembly today voted to repeal the state prohibition law. The vote was 48 to 13. The repeal bill, introduced by Assembly Speaker Tucker, was passed by a vote of 48 to 13. The bill provides for the repeal of the state prohibition law, and for the establishment of a system of local option. The bill also provides for the establishment of a system of local option. The bill also provides for the establishment of a system of local option.

Can't Pass Senate?

Before it can become a law, the Tucker bill will have to muster enough support in the senate and pass by a two-thirds majority. The senate is expected to oppose the bill, and it is believed that it will not pass.

Criticizes Legislators

During the course of the debate on the Tucker bill, several legislators were criticized for their opposition to the repeal of the state prohibition law. It was pointed out that these legislators were against the will of the people.

Curio-Seekers Dismantle Wrecked Flivver Plane

PAULSBORO, N. J.—Georges Barbot, pilot of the "flivver" airplane, announced Thursday that he had temporarily abandoned his flights in this country. Although his machine suffered little damage Wednesday when the frail craft plunged into a tree near here on an attempted flight from Garden City, L. I., to Washington, D. C., curio-seekers further disabled the mechanical flying marvel Barbot had brought to this country.

EXPLOSION AND FIRE WRECK BIG ARMY DIRIGIBLE; TWO INJURED IN 40-FOOT JUMP

DAYTON, Ohio.—By the Associated Press.—A twisted mass of blackened framework, the army dirigible TC-1, once proud mistress of the skies, Thursday lay at the base of a steel anchor tower at Wilbur Wright field, wrecked by an explosion and fire, during a severe electrical storm Wednesday evening. Two men were injured when they jumped from the doomed craft to earth, a distance of forty feet.

Proposes \$10 Offset

On the suggestion of Senator Staudenmeyer, the personal property offset is fixed at \$10 both for individuals and corporations. While this amounts to a practical repeal of the personal property offset it is apparent that the amendment is to exempt farmers and laborers who might have only a small income subject to income taxation.

EIGHT TENDERFOOT SCOUTS PASS TEST FOR TROOP NO. 11

St. Joseph's School Boys Presented by Scoutmaster Volz to Court of Honor

At St. Joseph's school Tuesday evening, Scoutmaster Bernard Volz, of Troop 11, presented to the court of honor for examination, for second class rank eight tenderfoot scouts. The scouts who successfully passed the required tests were awarded their second class honors and presented with pins by the chairman of the troop committee. They are: Marcus Leinfelder, Robert Koenig, Leslie Deimler, Anton Handlender, Joe Guenther, John Erickson, Leonard Fritz, and Edmund Duerr. One tenderfoot, Robert Stadler, was also examined.

The court consisted of twelve men, with A. J. Capellen as chairman, and all men sitting on the court agreed after the court adjourned that there were many things they learned that evening, that would have helped them something in the past had they known them and they all spent a profitable evening listening to the answers given by the well trained boys. With the beginning of second class, Troop 11, 22 second class scouts, one first class, and five tenderfoots, a record to be proud of, and the scoutmaster is to be congratulated. Unfortunately the e scouts are only a small percentage of the total number of boys of about age in St. Joseph's school, but it is hoped that in the future more boys will be added to the growing list of scouts.

FISHERMAN CLAIMS HE WITNESSED THE KILLING OF MOUNT

CHICAGO, Ill.—John Strom, an Evanston fisherman, was quoted Thursday by the Chicago Daily Journal as declaring he saw a boy resembling Leighton Mount, Northwest-

ern university freshman, killed and his body placed under a pier in Evanston early in the morning of September 22, 1921, the date of Mount's disappearance after a clash with a girl.

Strom's story, as related by the Journal, was told for him by Harry Cook, a columnist of young Mount's course of an incoherence in Strom's speech. Strom, who declared he had told his story to an Evanston policeman on that day and that no attention was paid to it, justified recently in the state's attorney's investigation but the authorities here and in Evanston said Strom had told unusual stories at other times and little credence was attached to his statements.

GOOD YEAR

"A Sure Income Is Better Than Sudden Riches"

"If I leave my family all my insurance and property outright," said a business man, "it would seem to them like sudden riches. They might conserve it, but they might not."

"I could leave this to chance, but I know my wife would prefer a sure income to uncertainty and money responsibility."

"So, in my will, I have specified that a trust company shall hold what I leave in trust for my family's benefit, paying them a fixed rate of income. In stated emergencies, however, extra amounts may be paid out. I am thus accomplishing flexibility with certainty."

We shall be glad to send you a copy of "Safeguarding Your Family's Future," a 24-page booklet that discusses wills and trusts and trust company service.

BOY SCOUTS START
ON BICYCLE RIDE TO
THE DELLS MONDAY

Good Sized Delegation to Make
Annual Trip to Kilbourn
and Return

Vacation will soon be here, and
the boys of the Boy Scouts of the city
on Monday morning at 9 o'clock
there will be assembled in front of
the scout headquarters, Rivoli Build-
ing, a group of about 100 boys, each
burdened under the load of a box
twelve inches in dimensions, con-
taining three suppers, three dinners,
and three breakfasts each done up
in paper and marked with the name
of the meal, and the date for which
the meal is intended.

Each boy will have a blanket roll,
rolled in a bundle four feet long, old
comforters, if possible. Then, in a
ten-cent gas mask, which can be
purchased at Thrift Tire & Rubber Co.,
you will find one each dinner for Friday,
supper for Saturday and Sunday, and
from the bicycle will be found a rain-
coat, canteen. These boys are about
to start on their annual bicycle ride
to the Dells, at Kilbourn, Wisconsin.

Truck Carries Extras
All blankets and boxes containing
additional meals will be carried on
a truck, giving the boys only the
weight of the canteen, raincoat and
gas mask packed with the one meal,
to carry.

The party will take trail No. 33,
to two miles east of Reedsburg when
they will leave for the County road,
which meets trail 12 between Bar-
aboo and Kilbourn. At Kilbourn the
boys will camp on the Dells Boat
Company ground, and will visit both
the lower and upper Dells during
their stay.

The party will be accompanied by
Howard Campbell, of the Campbell's
Coke Agency, who will have a side
car, carrying spare wheels, chains,
patches and oil for the motorcycles
which might happen. The whole party
will be under the personal super-
vision of the local Scout Executive.

The scouts who were on last
year's ride will have charge of the
details, and the new riders will be
divided among the older ones with
Billy Salzer as partner of the
scout party, and Wayne Veneman as
Bill's partner.

The boys who have signed up to
go on the ride are: Charles Schu-
ler, LaVern Goetzinger, John Goetz-
inger, William Rich, Otto Ritz, Walter
Wichow, John Schaefer, Jeff
Mabum, Walter Sobes, Fred Piers,
Clarence Tante, Gilbert Tischeer,
Pernel Smith, Orlando Olson, Frank

**To Have Curly, Wavy
Hair "Like Nature's Own"**

Anyone now can have just the pre-
dicted curls and waves. And they will
remain the longest time, when liquid
silmerine is used before doing up the
hair. When the hair is combed out it
will be nice and fluffy. Silmerine is
perfectly harmless, of course, and is
easily applied with a clean tooth brush.
It can be obtained at drug stores and
at toilet counters generally, and a few
couples will last for months. It serves
also as a splendid dressing, keeping the
hair soft and glossy.
Silmerine is fine for the outdoor girl,
as it prevents the hair from stringing
about the face and neck, even when
the day is quite warm or windy. A
boon to the bobbed haired girl!

A New Standard of Mileage

Proved by Thousands of Motorists
and Further Proved by Tommy Milton at Indianapolis

Tommy Milton brought the new stand-
ard of tire construction forcibly to the
attention of American motorists when he
flashed across the line at Indianapolis win-
ner in a race that proved to be one of the
most extreme tire tests on record. The first
four to finish and eight of ten "in the money"
were Firestone equipped. Not once—in
the entire 500 mile grind—was there a tire
failure on any car equipped with Firestone
Tires.

"Gum-Dipping did it"—is the car-owner's
explanation of this tire triumph which gives
emphasis to a series of mileage perfor-
mances unparalleled in motoring history.

For years vulcanizers who know tires
best have claimed that Firestone Cords

were the sturdiest built, had the strongest
carcass, and were the hardest to tear down
of any tire they knew.

The marked superiority of Firestone
Gum-Dipped Cords has been still more
clearly and definitely established during
the first six months of 1923.

Firestone has set a new standard—car-
owners have proved it. As a result, three
Firestone Gum-Dipped Cords are sold to-
day to every one a year ago.

If you are not now using Firestone
Cords, test one—or a set—under the most
difficult driving conditions you know.
Let the mileage results decide your future
buying.

Glossy and Beautiful
By Olive Oil Shampoo**

Tens of thousands of women now have beautiful hair that was once dry, dull, brittle. They have learned what all hair experts know: that olive oil must be used in the shampoo to leave hair soft and gleaming. You can prove this on your own hair. For you can use a delightful olive oil shampoo cheaply, at home. Get a bottle of PALMER'S SHAMPOO at any drug or department store. Follow the simple directions. You will be more surprised than anyone at the rapid improvement in your hair. For this gentle shampoo brings the latent life and sheen to your hair.

Class of '23, Vaughn Alderman; toast, "To the Future Association," Miss Harriet Hutson, county superintendent of schools.

The following officers were elected for the coming year: President, Miss Gladys Lamb; vice president, Miss Mabel Vandervert; secretary, Miss Tom Drell; treasurer, Miss Lucile Howie.

CHURCH VACATION SCHOOL WILL OPEN HERE ON MONDAY

Rare Opportunity for Young
People to Obtain Instruction
in Sunday School Work

The Church vacation school will open for its third year of work at the First Baptist Church on Monday morning, June 11th at 9. This school has had an enviable record throughout the whole state, and the workers have set for themselves a still higher goal for this summer.

All of the boys and girls in the city who are not going to attend other vacation schools, are most cordially invited. There is no registration fee, the school is free to all. Parents are urged to take advantage of this opportunity for their children's sake.

The instructional part of the work will consist in Bible memorization, habit talks, learning of the church hymns, studies in worship, much story telling, especially of the wonder tales of far lands, and many other things that help to develop boys and girls to be good citizens. The Christian flag and the American flag are given a prominent place, each morning as each is saluted and for each flag the school sings.

The teachers also realize that "there is no impression without expression" so they seek to guide the expression as well as make the impression. Instruction is, therefore, given in many forms of expression activities. The boys in manual training work, the girls in basket making, weaving, designing, and the little children in the making of the many things that delight the heart of kindergarten.

The leaders of the school do not forget that while it is a school it is also vacation time, so that fun and frolic and games are part of

the daily program. Volley ball every morning for the children. Bible games every day as part of the curriculum. Every morning the school is held from 9:00 until 11:45 for four weeks and a half, except Saturday. That is a big day, for every Saturday there is a picnic and then there is fun.

Children who are going to attend this school and who are not already registered are urged to come early on Monday morning so that they may start with the school on the first day. Last year there were children in attendance from 10 different Sunday schools of the city, and some from no Sunday schools. All are made welcome.

SHRINE VISITORS GET THRILL NOT ON THE PROGRAM

WASHINGTON.—Thousands of Shrine visitors searching for a real thrill at the air cleans given for their benefit at Bolling field Wednesday were horrified when the figure of a man tumbled from one of the air

planes thousands of feet in the air. They waited breathlessly for the parachute held by the figure to open, but it did not. Those who rushed to the spot where the huddled wreckage lay, found the only damage was a slight disarrangement of the clothing on a dummy which had been tossed overboard by a pilot with a leaning to practical jokes.

The world gets better. You seldom hear a shikule now.

MILWAUKEE SHRINE BAND TO PLAY FOR DANCE OF STATES

Music at Washington to be Broadcasted for Whole Nation to Dance to

WASHINGTON — Another day of crowded activities for the Shrine delegations attending their annual convention here preceded the historical pageant and parade along Pennsylvania avenue tonight as probably the crowning event of the convence.

A concert at American League park by the massed bands of all temples, led by Noble John Philip Sousa, was one of the feature events of the day's program. There also were additional air service, cavalry and field artillery stunts on the card for the entertainment of the visitors. Social functions included a dinner to the new imperial potentate, C. V. Dykeman, elevated to that office by the imperial council yesterday. The council was holding its final session today.

The historical pageant along the "Route to Mecca" and through the "Garden of Allah" in front of the white house Thursday night is to be followed by the "Dance of the States." With a section of Pennsylvania avenue from the capitol to the white house allotted to each of the state delegations, thousands are expected to join in the dance over the mile-long expanse of the avenue. Music from the bands of the Shrine and El Jemel temples of Milwaukee and Denver will be broadcast not only over the avenue, but special apparatus has been installed to throw it by radio over the entire breadth of the country.

It is thus designed, it was said, to have residents of every state join in the dance as signifying "a nation in step." The dance is scheduled to begin at 10:30 p. m. Eastern time.

BISHOP MITCHELL PRESIDES AT M. E. CONFERENCE HERE

CHICAGO, Ill.—Assignments of bishops for the 74 Methodist Episcopal conference to be held next fall in the United States, as well as the assignment of bishops for the foreign, mission and India conferences, were announced Thursday. These assignments were made at the meeting of the bishops of the church at the White House, but have just been completed and made public.

The assignments and dates include for Wisconsin the Chicago German conference, August 29, at Kenosha with Bishop Nicholson in charge; the Wisconsin conference, September 5, at Fond du Lac with Bishop C. L. Mitchell in charge, and the West Wisconsin conference at La Crosse, August 29 with Bishop Mitchell in charge.

HERE COME MA AND BARY IN GAS PRAM

ATLANTIC CITY.—The next time the highway policeman shouts, "Stop! You're speeding!" he will be addressing not a car, but the chauffeur at the wheel, but mother as she drives a "pramometer" with baby comfortably cradled within.

The pramometer is a gasoline go-cart, invented by W. H. Dinkley, of Dinkley's, Ltd., London, who is in Atlantic City as a delegate to the Associated Advertising club convention.

The machine is constructed so that mother finds comfortable footing on either side of a low wheel. This wheel has a petrol tank through which energy is created, enabling mother and baby to roll along smoothly without effort on her part.

Mother's only worry will be punctures and keeping the tank full of gas. A horn to warn pedestrians is attached.

RELEASE OF PRISONERS NOT YET IN SIGHT

WASHINGTON, D. C.—The state department announced a cablegram from the American minister to China said there was "no definite indication" of the time before Americans and other foreigners held by Chinese bandits would be released.

VERTICAL EXHAUSTS—YALE PROFESSORS SUGGEST THEM TO AVOID GAS FUMES

NEW HAVEN, Conn.—Tests of the carbon monoxide fumes coming from automobile engines have brought two Yale professors to the conclusion that the exhaust should be extended to the top of every car at the rear.

Thus, they say, will the danger of carbon monoxide poisoning be greatly abated and the nerves of city dwellers considerably relieved.

The experimenters are Prof. Yandell Henderson, professor in physiology, and Dr. Howard Hargard of the department of applied physiology at Yale. Both have studied gas poisoning for years. It was through them that the army gas mask was perfected and that an improvement on the pulmonary has been effected.

In their study of the effect produced by automobile exhaust gas, Henderson and Hargard found in a small closed garage for five minutes could paralyze a man, and in ten minutes kill him. Street accidents, they also conclude, result from loss of nerve control and weakened judgment of drivers partially "doped" by the gases they have been inhaling from machines in front of them.

Studied Traffic. Recently, they completed investigations of automobile traffic in New York for the public health committee of the New York Academy of Medicine. In his report, Henderson states: "The contamination of the air in the more congested streets of New York city for periods of several hours, reaches the upper limit, and for short periods even exceeds the upper limit of a well founded health standard."

A passenger auto in motion, the investigators found, contaminates the air for 20 feet behind with from one to two parts carbon monoxide gas to 10,000 of air. A bus sends its fumes 100 to 200 feet behind to a concentration of three to four parts of the gas to 10,000 of air.

The result, they say, is shattered nerves and dizziness on the part of drivers and pedestrians, causing many otherwise avoidable accidents.

Their Solution. As a solution, the experimenters suggest the extension of the exhaust pipe to the top of the car. According to Henderson, this form of exhaust will cause little if any appreciable loss of power, and the expense for the adjustment would be small.

The vertical exhaust is already in use on some bakery trucks in New Haven. It keeps the odor of the gasoline vapor from the bread, pies and cakes in the wagons. At the same time the gases go up and over the heads of drivers behind and relieve them of breathing in poisoned air.

In private garages, a ventilator would be required in the roof if vertical exhausts are adopted. A ventilating system in public garages would make this problem easier. The gas would rise to the ceiling and be drawn out before it had a chance to contaminate the air below.

End of Gasoline Engine Nearing. Engineers who have been perfecting the use of the gasoline engine for power travel look upon the recently announced invention of a "Baby Diesel" for automobiles as one of the most important advancements in the history of the industry.

The compressed air engine and the steam car are considered successors of the expensive gasoline vehicle. The

HOW CARBON MONOXIDE FUMES FROM HORIZONTAL EXHAUST AFFECT THE DRIVER BEHIND AND HOW THE VERTICAL EXHAUST AVOIDS THIS; ABOVE, AT A STANDSTILL; BELOW, IN MOTION.

"Baby Diesel," announced by J. J. Tynan, general manager of the San Francisco plant of the Bethlehem Shipbuilding corporation, confirms this prediction. After watching tests made with this compressed air engine, Tynan predicted automobiles going 50 miles to a gallon of fuel and with no gears to shift.

"The tests, conducted over a period of months with a 50-horsepower engine, have demonstrated beyond all doubt that it can be done," says Tynan.

"Engines of 3,000, 800 and 30 horsepower are now being constructed and following satisfactory tests with them, quantity production probably will be started in the near future."

The Diesel engines, hitherto only constructed in sizes adapted to the largest ocean vessels, will be operated for automotive purposes by the light and cheap oil such as is now used on naval submarines.

Gear shifting will be entirely eliminated as the engine itself is reversible and the transmission is so devised as to allow the interlocking parts to glide back and forth.

Greater stamina than any auto engine now in use also is claimed for the new invention.

While complete description of the invention is being withheld, it is stated that the engines are built to work on low compression and low fuel oil pressure. However, the full Diesel principle is retained.

LITTLE GIRL SUPPOSED

\$275 RING WAS PRIZE

MERRILL, Wis.—A \$275 ring was dropped accidentally by Mrs. C. Neff, Merrill merchant, in a package given to a little girl. After vainly seeking for the ring, Mrs. Neff noticed the ring on the girl's finger when she made a second call at the store. Mrs. Neff inquired as to where the ring had come from, and the little girl answered it was in the package she had purchased and she had taken it as a prize ring. The loss was explained, the ring returned, after which its value was made known, the big find, aurs almost causing the little girl to collapse in surprise.

BENEY OR SKOGMO MAY BE NAMED TO FEDERAL POSITION

MADISON, Wis.—Two state senators are being mentioned as possible appointees as United States district attorneys for the eastern district of Wisconsin.

A vacancy has been created in this office through the death of District Attorney Miller of Marinette. The name of Senator Theodore Beney of Sheboygan has been mentioned in connection with this post. Friends of Senator George R. Skogmo who recently opened a law office in Milwaukee are also urging his appointment.

There are many who believe that because of the fact that Senator Skogmo managed the campaign of the committee of 43 that he may be chosen to the new post at the conclusion of the session of the legislature.

Mr. Skogmo now maintains his residence at River Falls but if he should change his residence to Milwaukee his appointment would be possible. President Harding will make the appointment on recommendation of Senator Lenroot.

LIGHTNING TAKES 4 LIVES IN HEAVY STORM YESTERDAY

Two More Deaths Attributed to Heat Wave Preceding Electrical Disturbances

CHICAGO, Ill. — Lightning killed four persons and possibly a fifth, a number were injured and two deaths were attributed indirectly to the heat wave which preceded violent thunder, rain and electrical storms in widely separated parts of the country Wednesday.

Near Newton Falls, Ohio, Nicholas Cavolich was killed when lightning set fire to his barn. His wife, who was in the building with him at the time, has not been found. William Maxwell, a lineman, was struck by a bolt and died instantly at Coshington, Ohio. Two of his fellow workers were injured.

Two farmers were killed by lightning, one near Muskogee, Okla., and the other at Burlington, Kansas. Heat prostrations in New York and other parts of the country were numerous. At Cleveland, a woman fainted and fainted of a second story window to her death.

When a heavy rain storm began at Rockford, Illinois, a 12 year old girl started to take an umbrella to her mother and was killed by an automobile. Several children there were injured when lightning struck the house in which they had gathered. Some property damage was caused.

BAND OF INDIANS ORDERS RAILROAD GRADING TO STOP
ALBUQUERQUE, N. M.—Grading work for the Rio Grande Eastern railroad under construction from San Felipe to the Hagera coal mines was stopped when a band of Indians from San Felipe, under leadership of their governor, ordered the graders to cease work.

The Indians, it was reported, threatened violence and contended the railroad had no right of way through their land.

After shown papers of purchase, approved by the secretary of the Interior, several years ago, the Indians withdrew and grading work was resumed.

WOMAN HELD FOR DEATH OF HUSBAND FREED BY GOVERNOR

Shooting Was Justifiable Declares Blaine in Commuting Sentence

MADISON, Wis.—Viola Brinkman, who shot and killed her husband in Milwaukee, was freed by Governor John J. Blaine under a commutation of sentence on Wednesday.

The shooting occurred in August, 1920, and the woman was sentenced to four years in the house of correction on a charge of manslaughter in the third degree.

Governor Blaine announced that in spite of his convictions that the homicide was both justifiable and excusable, he was unable to grant an absolute pardon.

Mrs. Brinkman shot her husband following an altercation.

BLAME NOVELIST FOR SUPERSTITION THAT OPALS ARE UNLUCKY

Bad Reputation of Fire Gems Started by Sir Walter Scott in One of Last Novels

CHICAGO. — Opals have lived down the superstition of bad luck long associated with them and have become today one of the most fashionable and popular of gems. U. J. Coffey, president of the National Jewelers' Association said in an address at the annual meeting of the organization here.

"Most people assume that the idea of bad luck attaching to the opal is of immemorial antiquity," said Mr. Coffey. "The fact is it is less than a century old. Sir Walter Scott in one of his last novels, 'Anne of Geierstein,' published in 1829, set the myth going. He introduced into his

romance an imaginary opal to which he attributed a terrible malignancy that worked misfortune upon all who wore it. This fiction was the basis of the superstition ever had. But the wide vogue of Sir Walter as a novelist sent the myth broadcast to the ends of the earth. For centuries before his time the opal had been endowed in popular imagination with the beneficent properties of a talisman.

"There is no authentic record in all history that an opal ever brought misfortune to any one. No tragedy was ever associated with it except that wrought by this fanciful idea in putting into eclipse one of the world's most resplendent jewels and preventing a popularity it otherwise would have enjoyed."

CLASS PLAY AT NORMAL SCHOOL IS BIG SUCCESS

"Clarence" Presented by Grading Class in Normal Auditorium Wednesday Night

The Booth Tarkington stage success "Clarence" presented by the senior class of the normal school in the school auditorium Wednesday night went over to a good success before a large audience. The cast was well chosen, and the play was staged in a manner not often found in amateur productions.

undoubtedly the hit of the evening. His naturally droll manner fitted admirably into the part which he portrayed, Esther Friedman as Corn Wheeler was a success. She is an accomplished actress, and carried a difficult role in charming style. Donald Bruce, as Bobby Wheeler, Corn's under-graduate brother, was office boy and made an excellent partner for Miss Friedman. The part of Violet Platter, the governess, was well taken by Mrs. Grace High Thuring. George Gerling as Mr. Wheeler, the head of the house, gave a true to life picture of the business man who is too tired to look after the affairs of his home, and Mera Condit as Mrs. Wheeler, a devoted and gracious as Mrs. Wheeler, played by Ben Sylla. Maud Jarvis took the part of Mrs. Martyn, Mr. Wheeler's secretary, and Guyar

Skaar and Fred Evans appeared as Della, the maid and Dinawiddle, the butler. The play was coached and directed by Mrs. W. M. Lusk. The overture was played by the normal school orchestra. Between the third and fourth acts Maud Jarvis delighted the audience with two pleasing dancing numbers. Japanese Editors Are Poorly Paid. Japanese newspaper men work for small salaries, but efforts are being made by prosperous newspapers in Osaka to elevate the standard. The Osaka Mainichi, which has a daily circulation of about 800,000, has made substantial increase in its existing scale of salaries. Together with a bonus distributed twice a year, actual pay is two to three times the specified salary.

SEARCH OF MOTHER ENDED; DAUGHTER FOUND IN HOSPITAL

CHICAGO.—A probationary nurse of the Chicago hospital, entered at the municipal contagious disease hospital as "Ruth Kelly" was identified on Wednesday by Mrs. Anna Kuesel of Juneau, Wis., as her missing 16 year old daughter, Ruth, who she said eloped several months ago. She is suffering from scarlet fever. Similarly between the patient and the missing Juneau girl caused a friend of the mother, after visiting the hospital to notify her in Juneau. Mrs. Kuesel immediately came to Chicago where she found her daughter. John Shimmlin, the man with whom

the girl eloped, is wanted on a warrant. Shimmlin is said to be the father of four children in Juneau.
